:

SUBJECT

: Ferry Routes

1. Enclosed are the portions of the 6 Ferry routes that are of interest to you for Radar Suppression.
2. At the beginning of each route is the code name which we can use in telephone conversation.
3.  route is included in the event we are unable to use  due to political or other reasons. At present we do not expect to use  route. Hence, no times included.
4.  route is most likely to change due to Wx considerations. However, we will try to use same points entering ADIZ's if possible.
5. The dates and times are tentative. We hope to adhere to this schedule, but Wx, maintenance, etc. may cause us to change the dates and the times will change according to latest winds.
6. Approximately 12 hours before take off we will be able to give you latest times, etc. Would you like to handle this over the phone? How long before take off or after would you like the latest times?
